## 1. SUMMARY

Throughout my career as a full stack developer I've focused on developing scalable and well documented code. I enjoy working collaboratively but can also run with projects on my own.

I have a proven record of accomplishment in leadership, facilitating reports and correspondence organizing and coordinating various societies and groups. Leadership and work experience include handling financial issues, supervising team members, analyzing data and producing meaningful system designs and marketability of finished product.

A Full-Stack Developer with four years of experience leading both front-end and back-end development, and performing quality assurance.

## 2. PROFILE OF CORE COMPETENCIES

The under-listed are my specialties and areas of competence.

### **Achievement driven**

In my 4 years of working experience, I have gone through the various phase of software development; from requirement gathering, system analysis and design, to Coding and Testing

I demonstrate a high level of commitment, energy, resilience and tenacity in getting the assigned job done. I have achieved great success in creating, developing and managing several projects that have

yielded desired revenues and profitability for companies whilst developing a highly skilled and motivated work-force.

I Delivered expertise on every part of the application, performing continuous deployment and integration pipelines to different environments (dev, QA, prod), with tests, static and dynamic code analysis, and security audits.

Attentively managed the front-end and back-end for web and mobile applications, including React, node.js Laravel and Django.

Built RESTful APIs that served data to our JavaScript front-end based on dynamically chosen user inputs that handled over 500,000 concurrent users

I am a people person. I love people, love to impact the knowledge I have acquired over the years and I always go the extra mile to put smiles on faces by offering a listening ear where possible and a helping hand where necessary. To this end, it is my determined purpose to combine my basics in Information Technology with a career in human resources and to become a professional in getting things done with and through people and the application of Information Technology to achieve organizational objectives.

Coordinated with web developers to secure core server product development service components for more than 10 client sites, ensuring compatibility with all major browsers on mobile and desktop platforms.

### **3. Experience**

---

#### **DevTeam IT Firm**

Full stack developer

October 2020 – November 2021

Built RESTful APIs that served data to our JavaScript front-end based on dynamically chosen user inputs that handled over 200,000 concurrent users

Built internal tool using Symphony and Laravel to automate QA and monitoring of customer-facing web app which improved click through rate by 3%

Worked alongside another developer to implement RESTful APIs in Laravel and Nodejs (express) that enabled our internal analytics team to increase reporting speed by 24%

## **Intercom Programming and Manufacturing Company (IPMC)**

Junior Web developer and Assistant lecture

April 2017 – February 2019

Selected as the top performing intern in my class by the technology team

Managed back-end requirements such as renewing domain name registrations.

Enhanced web sites and applications by developing robust databases.

Adapted websites to match changing user preferences and client demands with regular updates.

Checked structure, conformance and browser compatibility of code with validation processes.

Managing back-end of web applications: PHP(OOP), Laravel, Symfony.

Writing clean , readable and reusable code using object oriented programming(OOP).

Created innovative designs with use of programming languages such as HTML/CSS AND frameworks such as bootstrap and JavaScript (jQuery, Vanilla, OOP).

Building complete multi-vendor ecommerce web application from scratch.

Assisting lectures during class and help students to further understand the concept of Programming.

Help students with their final year projects and give them ideas and orientations in order to pass their exam.

### **3. EDUCATIONAL & PROFESSIONAL BACKGROUND**

.Advanced Professional diploma in Software Engineering at Intercom Programming and Manufacturing Company Limited (IPMC)

.Certified in Visual studio programming language at Green U College: 2018

.Certified in Microsoft office administration

.Certified in Graphic design (Adobe Photoshop)

### **4. Skills**

---

**Technical Skills:** Python, PHP, JavaScript, HTML5/CSS, Visual Basic

**Frameworks:** Nodejs (Express), Bootstrap, Laravel, Symfony, Django

**Libraries:** React, jQuery, Vanilla,

**CMS:** WordPress, Joomla

**Tools:** Git, GitHub, Docker, Redux, Agile (Scrum)

**Databases:** MySQL, Mongo DB, Sql (SQLite, Postgres)

**Operating System:** Windows, Linux

**Others**

**Languages:** French (native), English (fluent), Arabic (intermediate)

## 5. PROFESSIONAL ATTRIBUTES

---

- System Analysis and Design
- Share Decision Making
- Team Player
- Team Training and development
- Good Customer Relationship

## 6. PERSONAL ATTRIBUTES

---

- I am very seasoned in speech. I know what to say, how to say it and when to say it
- I am very meticulous and diligent. I get things done, done right and on time.
- I am able to compliment and lead collective efforts to achieve results

## 7. INTERESTS

---

Religious History and Koran Research, Reading and undertaking research work.

Passion for sports-football, table tennis, basketball, news, new technologies.

## 8. REFEREE

---

1. Mr. JOY  
IPMC INSTRUCTOR,

Tel: **+233546447527/+233553529064**

2 Amara Camara

Full stack developer

Tel: **+224 621 98 91 00**

3 Ali Baba

Civil Engineer

Tel: **+ 233 26 293 7879**
